

ArteFakt

SOUVENIRS

DIRECTORY

DEAR SIRS

Firstly, we would like to thank You for devoting Your time to see the offer of our company.

You can look through this Directory as You want: in a traditional way (skimming over another slides by using computer mouse) or in an interactive way - each slide has a hyperlink. Thanks to that You can go to the other part of the presentation faster. Please, pay attention to the interactive maps - by clicking on the chosen city the hyperlink will take You to the offer of this city. From each slide You can come back to the main contents or to the map of one of the five countries. You can also continue looking through the presentation in the traditional way.

At the end of the Directory You will find all the contact's information. You can also see the links to our social media - website, Facebook and Instagram. We would like to invite You to visit them - it's only one click on the right icon.

Best regards,

Team of Arte-Fakt Souvenirs

CONTACT

THANK YOU

ABOUT US

We are a company from Gdańsk (Poland) specialised in manufacturing unique souvenirs dedicated to many cities in Poland and Europe (Czech Republic, Lithuania, Germany, Slovakia) since 2009.

All of the models are handcrafted, starting with carving the prototypes of new designs, and ending with hand-painting of the models. What makes our miniatures particularly special is the exceptionally precise detailing of our models. Our souvenirs are made of natural materials and hand-paint with watercolours.

[Return to the contents](#)

OUR SOUVENIRS

In this presentation we would like to show You only a part of our still growing up offer - some from more than **450 models** from almost **50 cities**. There are many miniatures of historic architecture (especially tenement houses, which were an inspiration to found our company), but also the copies of statues, crests and famous, modern buildings.

We can also create the models for special events.

POLISH PRODUCT

In the world where almost everything is produced (not created) by machines (not by people) and as cheap as it can be, we can offer You something, that is the most important for us: **the quality!**

We would like to show You our models - ambitious, handmade souvenirs "made in Poland"!

[Return to the contents](#)

WELL-KNOWN COMPANY

Our models are very popular! Many tourists from all over the world appreciate the quality of our designs - they are boasting by making the great photos on Facebook, Instagram or on the travel's blogs. We have hundreds of fans - for them each new trip is unfulfilled if they didn't find our magnets!

[Return to the contents](#)

MANY TYPES OF COLOURS

Many of our models have **more than one type of colour** - not only the original one, as the real building.

We believe in the power of variety! Thanks to that we are sure that each customer will find a perfect souvenir for him or herself!

[Return to the contents](#)

FRIDGE MAGNET AND FIGURINE

Some of our models we are making in two ways - to let exhibit them not only as **the fridge magnets**, but also as **the standing figurines**. Thanks to that You can present them in Your shop not only on the wall or magnet board, but also on the shelf or table - so can the customers in their houses.

[Return to the contents](#)

EXHIBITION

The way in which our models are shown in Your shop is very important for us. This is why we would like to offer You our own magnet boards (to stand or to hang).

Because of the company's colours and logo on it, this is a perfect exhibition's way.

[Return to the contents](#)

DEVELOPMENT

DEVELOPMENT

Our company is developing very well and each new season is better than the last. We are making more and more designs - between October 2018 and June 2019 we just broke our new record and were making **more than 80 new models from 26 cities!**

We keep creating new models for the cities we have already in our offer. However we are still looking for new destinations.

[Return to the contents](#)

AMBITIONOUS PLANS

In last year we set up new cooperations and created new collections of models for next cities in Poland (**Bydgoszcz, Chełmno, Olsztyn**), Czech Republic (**Trebon**), Germany (**Rothenburg ob der Tauber**) and Slovakia (**Banska Stiavnica, Bardejov, Bratislava, Kosice**).

We also won a completely new country - Lithuania (**Kaunas, Trakai, Vilnius**), and, believe us - our future plans are more and more ambitious!

[Return to the contents](#)

MAX MODELS

In 2020 we started working on a new series of standing models, twice the size of everything we have created so far. The first model in the collection was the Cathedral of St. Stanisław and St. Wacław from Świdnica with the height of 21cm. As next there were: Main Town Hall from Gdańsk, City Hall from Wrocław, St. Mary's Basilica in Cracow and the Town Hall from Poznań. The collection is still growing up.

[Return to the contents](#)

CHRISTMAS DECORATIONS

In 2020, we also created a new series of Christmas Decorations. Hand-carved and painted models can be exhibited in two ways: as a Christmas tree ball (on a colored ribbon) or as a magnet (with a decorative bow). There are 18 models in collection. Some of them are round and present christmas scenes (e.g. snowy landscape, Bethlehem stable), while others have been given characteristic shapes, e.g. Christmas tree, Santa Claus or a gingerbread cottage.
